Letter of recommendation

NLB has been leading the way in water jet productivity since 1971. You won't find a wider range of high-pressure and UHP pump units and accessories anywhere or higher standards of quality and reliability. With in-house engineering, manufacturing and customer support that set the industry standard, NLB is the choice of contractors and operations professionals around the world.

The cooperation between the Company and MDDP Outsourcing commenced in 2016 and is still live. MDDP is responsible for bookkeeping, preparation of tax returns, inputting payments into the banking system, statutory and management reporting. MDDP's important role is assisting in solving emerging problems as well as supporting legal and tax advisors.

Professional attitude and previous experience of cooperation allows us to confidently recommend MDDP Outsourcing as a reliable business partner.

Yours faithfully,

13 SEPT 2019

Denny Glandon
Vice President and CFO
